Expert Addresses Albany Group On Transistors

Bell Telephone Laboratories' transistor was the subject of a talk Tuesday evening before the Albany Young People's Club at the YMCA building, recently.

Pacific Telephone's James Morrish explained the invention to club members at their regular meeting.

The transistor was born in Bell Laboratories in 1948. It is considered an industrial miracle, and the greatest advance in communications since Lee De Forest invented the radio vacuum tube in 1907.

Electronic tubes have been vastly improved since De Forest's discovery, but they still have the limitations of their light bulb ancestor — they're bulky and fragile and heat makes them burn out eventually.

Each transistor is a speck of germanium metal, called the "cinderella metal" by Bell scientists, sprouting hair like wires. It has no glass envelope, vacuum, or filaments, and it responds immediately to electrical impulses. Transistors do not throw off heat and use only a fraction of the power needed to run a vacuum tube.

Chief Pimental Warns Parents On Costumes

Fire Chief Fred Pimental of Albany cautions all parents who are planning for their children to wear Halloween costumes for Trick or Treat, or for a party, to be sure the costume they wear is made of non-combustible material. If paper is to be used in its construction there is a non-inflammable type that can be purchased and it should be the only kind used. Design of the costume should be toward the tight fitting rather than the loose and fully cut. Lighted candles are a taboo, the chief cautions, as this presents a scource of ignition within a child's reach, a most dangerous practice.

"If these few common safety practices are followed", the chief says, "then the ghosts of Halloween will be only in fancy and not in fact on the next day."

RABIES LAW GETS FINAL APPROVAL OF COUNCIL

The new rabies quarantine ordinance was given final approval of the council on Monday night after the members heard a detailed explanation of its method of operation and of the technical terms in a letter from City Health Officer Dr. Robert T. McMahon.

The Health Officer declared the new ordinance would provide for local control, and that its provisions would only be called into force if the city became endangered by a threatened rabies epidemic. The State law, which would be in effect if the situation were not covered by local ordinance, and would be county-wide, could very well establish a quarantine here even though there were no cases nearer than southern Alameda county.

The poultry slaughtering problem again came before the council as a result of a recommendation from the Planning and Zoning Commission that the property now occupied by the two poultry firms on San Pablo Avenue be rezoned from "Heavy Commercial" to "Six-Story Commercial", with a provision that the current owners might continue their operations on a "non-conforming" basis.

This recommendation came as a result of the reference to the Commission of Mrs. Zahn's proposal, presented two weeks previously to the council. In presenting her proposal she declared she feared that if such a rezoning were not made it would be possible for the poultry firms to sell out to some heavy industry firm that might be even more objectionable to surrounding residents. Following the reading of the commission's recommendation Mrs. Zahn moved compliance with the approved proposal, but her motion lost for want of a second. She then declared the council was just "stalling for time".

The new ordinance covering the poultry slaughtering, and tightening the restrictions, is now in the hands of the City Engineer and the City Attorney, and is due to be brought before the council at next Monday night's session.

The council discussed at some length the matter of contributions to the Albany Senior Chamber of Commerce and the Solano Avenue

It got its lightning from the Thunderbird!

The '56 Ford borrowed the Thunderbird's beauty and its Y-8 "GO" to boot!

The long, low lines and beautiful new styling of the '56 Ford makes it a dead ringer for the fabulous Thunderbird. And in *power*, too, Ford is mighty like the Thunderbird.

Ford's new Thunderbird Y-8 engine, successor to the V-8, is 202-h.p.* strong. Basically, it is the same as the engine that won nationwide fame for alert performance in the Ford Thunderbird.

Another exciting advance in Ford for '56 is Lifeguard Design. It means added protection against the major causes of injuries in accidents. You're protected by a new deep-center steering wheel, new double-grip door latches, new optional seat belts and safety padding.

Let yourself go—for a thrilling test drive in the Thunderbird-inspired '56 Ford. Come in. We've got the keys!

Yield Signs Will Soon be Posted

SACRAMENTO — California motorists will soon be seeing the new "Yield" signs at some intersections, according to Commissioner B. R. Caldwell of the California Highway Patrol.

Several eastern states already are using the signs. Installation is now permitted in California under a new law which became effective Sept. 7, 1955. The "Yield" signs will be triangle shaped, with black letters on a yellow background.

"Yield" signs permit drivers to cross an intersection at 15 miles per hour or less if no vehicle is approaching on the cross street. If traffic on the cross street is approaching close enough to constitute an immediate hazard, the driver must yield the right - of - way or stop if necessary.

The right thinker abides under the shadow of the Almighty. His thoughts can only reflect peace, good will towards men, health, and holiness.—Mary Baker Eddy.

Solano Merchants Christmas Fund Continues to Grow

The Christmas decoration fund for Solano Avenue continues to grow with 41 additional contributions received in addition to those listed last week. The City Council also acted on Monday night to contribute the sum of $200 to the fund, and a like amount to the Senior Chamber of Commerce for its decoration program. Last year the council contributed $50 to the Solano Avenue Merchants and the same to the Circle C., and these amounts had been included in the city's budget, recently approved. However on Monday night, after some discussion, Councilman Blank moved to increase the total from $300 to $400 and allot $200 to the Chamber and the same amount to the Merchants, basing his move on the fact that the recent change in the sales tax ordinance should bring in enough to more than cover the increased allotment. Blank also said he thought the decoration of the main streets of the city for the holiday season was good for business and for the best interest of the city as a whole.

Additional contributions to the Solano Merchants fund are as follows:

Rabies Law Gets Approval of Council

(Continued from page one)

Merchants for Christmas decorations.

Last year the council alloted $150 to each of the organizations for this purpose, and a like amount had been included in the budget recently adopted. Mrs. Zahn moved to repeat this action as conforming to the budget, but after some discussion her motion was amended to make the allotment $400 to be divided equally between the two organizations. The amendment was approved, and the amended motion was passed giving each group the sum of $200. Councilman Jerome Blank supported the increase, declaring that the Christmas decorations are a civic duty and that the amount still is much less than other cities of like size allot for this purpose. He also declared that the new tax law covering "point-of-sale" should raise several thousand dollars, not anticipated at the time the budget was drawn up. Mrs. Zahn voted "No" on the motion.

Other action by the council included approval of the request of City Engineer Howard Carter that he be permitted to advertise for bids on a new pickup truck for the Street Department; a further request by the City Engineer requesting authority to have surveys made when necessary to determine the actual city boundary lines in relation to the banks of Cerrito and Codornices creeks. This was approved and Engineer Carter was asked to submit an estimate of costs to the council.

The council also approved a request of Chief of Police Jensen that the City Engineer be authorized to make a survey of streets where the grade is 3% or greater, and where he deems it necessary, be granted permission to paint white center lines. This would cover such situations as the top of Solano Avenue where it passes over Albany Hill, and also some narrow streets where traffic might be prone to drive in the middle of the street, thereby endangering approaching vehicles.

The Chief of Police also requested he be allowed to purchase three additional bullet proof vests for the use of officers seeking dangerous criminals, and cited a recent case where the men captured a killer, where their lives might very well have been endangered. This was approved, the cost being $45 each. The department already has one of the vests.

A new system of project accounting to cover construction and maintenance projects utilizing gas tax funds was accepted, and a fee of $100 was ordered paid to the accounting firm which made the survey and installed the system.

BATTERY CHECK

Rapid evaporation during hot summer weather causes the solution in an automobile battery to dry up faster than at other times, cautions the California State Automobile Association. It's a good thing to have it checked each time you get gasoline during the summer months.

Cripple Appeals To Times Readers For Film Photos

Peter Peterson, of 639 E. LaSalle Avenue, Barron, Wisconsin, writes The Albany Times that he is a paralytic of six years standing and would appreciate it if anyone having photos of players of the silent movie days would send some to him. "They would bring back many happy memories of my boyhood days", he says. "Please write to me".

Albany Mothers To Meet Tuesday

The Albany Mothers Club will hold a luncheon and business meeting on Tuesday, Nov. 1 at noon, at the Y.M.C.A. club rooms, 921 Kains Avenue. Mrs. Elsie Thorpe, president, requests that all members endeavor to be present.

Scholarship Tea Planned by Albany High School PTA

A fall scholarship tea will be given by the Albany High School PTA at 2 p.m. on Wednesday, Nov. 2, according to Mrs. Leslie Burman, president. Each year the High School PTA unit gives two $50 scholarships to deserving students chosen by a PTA committee and Mr. Chas. A. Moore, principal of Albany High School. Tickets for the tea are purchased for 50c each to help raise money for these scholarships.

Mrs. Sherman Johnson, guest speaker for the tea, will review books under the theme, "Ghosts of the Past Rise Again." Mrs. Johnson is a well known book reviewer and lecturer of the Bay Area.

Special music for the day will feature the Albany High A Capella choir under the direction of Stephen Lehmer.

The home making department at the high school will be in charge of refreshments.

The next regular PTA meeting will be the annual pot luck dinner to be held on Thursday, Nov. 10, at 6:30 p.m. in the school cafeteria.

CHRISTIAN SCIENCE

The way to overcome sin — its causes as well as its effects — through the understanding of God will be brought out at Christian Science services this Sunday.

Keynoting the Lesson - Sermon "Everlasting Punishment" is the Golden Text from Ezekiel (18:23): "Have I any pleasure at all that the wicked should die? saith the Lord God: and not that he should return from his ways, and live?"

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following. "Divine Love corrects and governs man . . Every supposed pleasure in sin will furnish more than its equivalent of pain, until belief in material life and sin is destroyed" (6:3 only, 12-14.)

Scriptural readings include the following (Psalms 37:27): "Depart from evil and do good; and dwell for evermore."

Not long ago a hush-hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR* certified record—the first time that old King of the Mountains has seen a new official stock car record in years! And what a road! 170 chilling turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction!
